He emphasized that such initiatives would significantly enhance the visibility of the sport, provide greater exposure to athletes, and strengthen the overall ecosystem of cycling in the country.

Shri Solanki ji reiterated that the Federation's primary objective remains to achieve excellence at the international level, including qualification for the Olympic Games and securing medals for India in the future.

Grassroots Development Initiative

A member of the house highlighted the ongoing efforts at the grassroots level, particularly in identifying and nurturing young talent between the age group of 6 to 16 years. It was brought to the notice of the house that there is currently no national-level competition for the age group of 8 to 11 years, which results in young athletes moving to other sports.

A proposal was placed to introduce national-level competitions for this age group and to conduct such events in a self-sustainable manner without financial burden on the Federation.

The house appreciated the initiative and acknowledged its importance. It was suggested that a detailed proposal, including financial aspects, be submitted to the Federation. The proposal was agreed to in principle, subject to further evaluation.

Inclusion of Under-23 Women Category

A suggestion was raised regarding the inclusion of an Under-23 category for women in National Championships to bridge the gap between junior and elite levels.

The matter was discussed in detail. While the importance of the category was acknowledged, concerns were raised regarding the current level of participation among women athletes across States.

It was suggested that the feasibility of introducing such a category be evaluated based on adequate participation and compliance with required norms. The house agreed to review the proposal accordingly.
